

Influenza (H1N1) Prevention

OzMagic

Under the Ozmagic license from Japan

Ozone Water Purification System

- ✓ Ozone water micro generator system
- ✓ Breakthrough technology
- ✓ Self powered
- ✓ Kills bacteria and viruses
- ✓ No filters
- ✓ Economical
- ✓ Ecological

Before washing

After one minute of washing with tap water

After one minute of washing with OzMagic Ozone water

Oz Magic- Ozone Water Purifier Features

- In built turbine generator for Ozone generation. No external power supply needed.
 - Highly quality manufacture with "Japanese patent".
- #### Oz Magic- Ozone Water Purifier Benefits
- Extends the shelf life of food products.
 - Inexpensive to produce and has unlimited supply.
 - Kills bacteria, yeast and protozoa on food-contact surfaces such as fresh fruits, vegetables, grains, seeds, nuts, legumes, and all animal meats.
 - Kills yeast and mold spores in food processing.
 - Washes and kills bacteria, yeast and protozoa on fresh produce.
 - Attacks (oxidizes) impurities in water such as iron, arsenic, hydrogen sulfide, nitrites and organic clumps.
 - Oxidizes and degrades organic pollutants including pesticides, herbicides and other persistent environmental chemicals.

Oz Magic- Ozone Water Purifier Effectiveness

- Treats all known bacteria.
- Treats all known Fungi and yeast.
- Treats all known Protozoa (including parasites and amoebae).
- Is the most effective of all known sanitation agents for Cryptosporidium.
- 50 times more effective than chlorine bleach.
- Kills bacteria 3100 times faster than chlorine.
- The most powerful broad-spectrum microbiological control agent available.
- The most powerful food-grade anti-microbial agent available.

Oz Magic- Microbe, Exposure Time and Reduction Rate

- E. coli 0157:H7 5 sec. 99.9%
- Salmonella 5 sec. 99.9%
- Pseudomonas aeruginosa 5 sec. 99.999%
- Staphylococcus aureus 5 sec. 99.999%
- Candida albicans 5 sec. 99.999%

Oz Magic - Safety

- Clean and environment-friendly; its only by-product is oxygen and ozonized water.
- Has full FDA-approval for direct-food contact applications.
- Proven safer for employees than any conventional chemicals.
- Extremely effective as the disinfectant at relatively low concentrations.
- Has UL and NSF Certifications.

Oz Magic- Eco-friendly

- Eliminates all chemical usage and is chemical-free.
- Eliminates the chemical by-products of chlorination.
- Eliminates the use of hot water and conventional sanitizer.
- Generated on site, eliminating transportation, storage and handling of hazardous chemicals.
- Permits recycling of wastewater.
 - Reduces Biological Oxygen Demand (BOD).
