

## Commercial Air Purifier Model: SM767A-2

IMD control panel

### Specifications

- Voltage supply: 230V, 50Hz
- Noise level: 46dB(A)
- Power rating: 53watts
- Net weight: 9.4 kgs
- Applicable area: 60 m<sup>2</sup>
- Air flow volume: 500Cbm/h
- Ions: 8 million ions/cc
- Dimensions: 449x279x600mm

### Function

-  Aluminum static plasma filter: Purification for dust is more than 99.9%
-  HEPA can effectively remove of particle PM2.5
-  Activated carbon can effectively remove smoke, formaldehyde and other odors
-  Photo-catalytic degradation of bacteria cell membrane; inhibit virus activity
-  IMD control panel
-  PM2.5, temperature, humidity and time setting display etc.
-  App supply: remote control, air quality supervise
-  Negative ion is praised as Air Vitamin
-  UV light to kill bacteria efficiently
-  WIFI + mobile terminal APK
